

POSITION POSTING

Journeyman Electrician

LOCATION: Humboldt, Saskatchewan

REPORTING TO: Vice President

RESPONSIBILITIES:

Sapphire Water is seeking a Journeyman Electrician for the Industrial, Commercial, Service and Maintenance sector, primarily in the water and waste water treatment, process & manufacturing industries. Key responsibilities will include, but are not limited to:

- work either independently or under the supervision of another journeyman
- responsible for and have the ability to install and troubleshoot main service equipment, MCC's, motors, drives, control systems, instruments, basic wiring and conduit installations, etc;
- ability to read electrical schematics and blue prints;
- responsible for training, organizing and supervision of Apprentice staff while on job sites.

This position will work closely with all areas within The Sapphire Group and will liaise between clients and management. This individual must ensure timely and effective delivery of services and supplies.

QUALIFICATIONS:

To meet the challenge of this role, we are seeking an energetic, extremely organized self-starter who enjoys a challenge. The ideal candidate will possess solid skills in written and oral communication, problem-solving, trouble-shooting and proven ability to adapt when challenged.

Applicants must have a Journeyman Certificate, Saskatchewan Journeyman License or an Inter-provincial Journeyman electrician certification under the red seal program. A minimum of 4 years previous electrical experience in the industrial and commercial environment is a must. This position will require the ability to work independently or as part of a team and so the candidate must possess strong, dependable work ethics. Candidate must provide a basic set of hand tools including a battery drill and be prepared to travel to remote locations to perform their responsibilities. A clean drivers abstract will be a condition of employment.
